

Linda A. Swift, CHMM, CET, TURP, RABQSA Auditor

Title Manager, Environmental Compliance and Systems Group

Certifications -Certified Hazardous Materials Manager (CHMM)
-Certified Environmental Trainer (CET)
-Toxics Use Reduction Planner (TURP)
-RABQSA Auditor

Education -B.S., Education, Castleton State College
-Numerous post graduate courses and seminars to include chemistry, hazardous waste management, hazardous materials transportation, emergency response, emergency planning and Community Right-to-Know Act, Toxics Use Reduction (TUR) planning and reporting, ISO 14001 lead auditor and semiconductor safety

Experience Ms. Swift serves as the Manager of the Environmental Compliance and Systems Group at CAPACCIO and is responsible for compliance services such as the development and maintenance of environmental management programs (EMP) and environmental management systems (EMS), environmental compliance and environmental system conformance audits, environmental permitting, development and delivery of environmental training, contingency and emergency response planning, hazardous materials permitting and reporting, TUR planning, and product compliance (e.g., European Directives such as ROHS, WEEE, and REACH).

With more than 20 years of environmental management experience, she has assisted industrial clients with the development of environmental programs, systems, and training to help the client meet their environmental obligations. She has also developed compliance tools such as regulatory registers and compliance calendars to assist in the management of day to day compliance tasks. She has served as project manager and participated in individual environmental compliance audits as well as in internal environmental system audit programs to assist clients in their efforts to ensure continual improvement of their programs and systems.. She has also provided services to help the clients return to compliance and take advantage of self-disclosure policies.

Prior to working in environmental consulting, Ms. Swift held a position with an environmental services firm as a senior trainer at which time she developed and delivered emergency response training programs offered to in-house personnel as well as the general public. She also has served as Facility Hazardous Waste Manager, Right-to-Know Coordinator, and Training Director for a nationally known printing company. For four years, Ms. Swift served as the chairperson of the Certification and Exam Committee for the New England Chapter of the Academy of Certified Hazardous Materials Managers (NEACHMM) during which time she managed the development and delivery of a Certified Hazardous Materials Manager exam preparatory course.
